

Ex. No.: 3a)

Date:

Shell Script – Reverse of Digit

Aim:

To write a Shell script to reverse a given digit using looping statement.

Program:

Ex. No.: 3b)

Date:

Shell Script – Fibonacci Series

Aim:

To write a Shell script to generate a Fibonacci series using for loop.

Program:

```
elamathi_066@localhost:~ — /usr/bin/vim subject.dat

Ben 30 45 50
Tim 99 96 97
Tom 96 95 96
~
~
~
```

```
Activities Terminal Feb 24 20:52
elamathi_066@localhost:~

[elamathi_066@localhost ~]$ touch average.awk
[elamathi_066@localhost ~]$ vi average.awk
[elamathi_066@localhost ~]$ touch employee.dat
[elamathi_066@localhost ~]$ vi employee.dat
[elamathi_066@localhost ~]$ awk -f average.awk employees.dat
Processing Employee Records..
awk: average.awk:4: fatal: cannot open file 'employees.dat' for reading: No such file or directory
[elamathi_066@localhost ~]$ awk -f average.awk employee.dat
Processing Employee Records..
No employees match the criteria
[elamathi_066@localhost ~]$ vi average.awk
[elamathi_066@localhost ~]$ awk -f average.awk employee.dat
Processing Employee Records..
Average Pay: 8000
Sum: 8000
Number of employees: 1
[elamathi_066@localhost ~]$
```

11,11-18	All
